

# Plants for Almost Any Situation

*Fragaria virginiana*—Wild Strawberry (p.22)

*Andropogon gerardii*—Big Bluestem (p.44)  
*Ratibida pinnata*—Yellow Coneflower (p.32)

*Rosa arkansana*—Prairie Wild Rose (p.42)

*Aster novae-angliae*—New England Aster (p.16)

*Aquilegia canadensis*—Columbine (p.14)  
2009 Photo Contest finalist—Matt Williams

*Phlox pilosa*—Prairie Phlox (p.30)

*Allium canadense*—Wild Garlic (p.14)

Fitting living organisms into fixed categories is always a risky proposition, but we try our best to describe habitat preferences for the 600+ native species that we offer. These pages showcase native species that seem to be particularly resourceful and adaptive and therefore can flourish in a wide range of growing conditions. If you want to get started planting with natives, these are certain to do well in a wide variety of situations.

No.	Common Name	p.			
ANE02F	Canada Anemone	14	RUD02-08F	the Rudbeckias	32
AQU02F	Columbine	14	SIL54F	Compass Plant	34
ALL02F	Wild Garlic	14	TAE02F	Yellow Pimpernel	36
AST06F	Drummond's Aster	16	TRA02-06F	the Spiderworts	36
AST12F	Calico Aster	16	VIO10F	Common Blue Violet	38
AST18F	New England Aster	16	MAT02S	Ostrich Fern	38
BAP04-10F	the Baptisias	18	ROS02T	Prairie Wild Rose	42
DOD04F	Midland Shooting Star	20	ROS03T	Pasture Rose	42
ECH02-08F	the Echinaceas	22	POT52T	Bush Cinquefoil	40
FRA02F	Wild Strawberry	22	PRU06T	Eastern Sand Cherry	40
GER02F	Wild Geranium	24	AND02, 06G	Bluestem, Big and Little	44
HEL82F	Early Sunflower	24	BOU02G	Side-oats Grama	44
MON02F	Wild Bergamot	28	CAR39G	Plains Oval Sedge	44
PHL10F	Prairie Phlox	30	CAR14G	Common Hop Sedge	46
POL 90F	Small-flowered Leafcup	30	CAR34G	Brown Fox Sedge	48
RAT04F	Yellow Coneflower	32	ELY02G	Canada Wild Rye	48
			PAN04G	Switch Grass	50
			SPO06G	Northern Dropseed	50

*Aster lateriflorus*—Calico Aster (p.16)

*Viola papilionacea*—Common Blue Violet (p.38)

*Rudbeckia triloba*—Brown-eyed Susan (p.32)
